With over 20 years of experience in design that spans from lighting fixtures and furniture, retail and commercial interiors to large scale sports facilities and urban masterplans, my focus has always been on using technology to bridge conceptual thinking and architectural form. As an early adopter of 3D graphics software modeling and visualization techniques, I continue to explore it's role in architectural creation.

HOUSING

Sanya Olympic Bay resort

Hainan Island, China 2010

DRDS in collaboration with SWA have won the masterplan of a new sports resort community outside the vacation city of Sanya, China. The project consists of 250 residential villas, mid-rise and high-rise condominiums, resort hotel, boutique hotel, marina and sports component that includes an arena, aquatic center, sports center, sports retail center athlete's dormitory and an Olympic exhibition museum with an observation tower inspired by the 2008 Olympics in Beijing.

Meadowood Estates

Yongin, Korea 2008

The master plan for Meadowood Estates envisions a new and exclusive lifestyle community located in the unique and natural setting of Yongin City. Nestled in a small valley surrounded by forest. There are private residential villas, town homes and a clubhouse organized around public and private open green spaces.

Paragon Residential Towers

Sadangdong, Korea 2010

Developers were looking for a cost effective means to reposition their projects in Korea. Working with an existing footprint and unit layouts transformation was achieved solely through exterior cladding.
